#### OBJECTS OF THE DISTRICT.

2. The objects of the improvement district shall be the acquisition and operation of works and licences for the storage, delivery, and carriage of water for irrigation and such incidental purposes as are authorized by the licences it acquires.

NUMBER, QUALIFICATION, AND TERM OF  
OFFICE OF THE TRUSTEES.

3. There shall be five Trustees of the said improvement district.

4. Any person qualified to vote as hereinafter provided shall be qualified to be a candidate for election as Trustee.

WORKS.

5. The Trustees shall divide the lands in the district into three areas, as follows:—

(a.) The Interlaken Area, comprising Lots 1 to 7, 20 to 28, 31, 32, and 35, Registered Plan 428, and the Fractional North-west Quarter of Section 12, Township 14:

(b.) The Rayburn Area, comprising a 48.5-acre parcel of the Fractional South-east and North-east Quarters of Section 11, Township 14:

(c.) The West Side Area, comprising all the remainder of the lands in the district; and shall maintain and operate three or more pumping plants for the delivery of water to the lands in the three said areas.

6. The improvement district shall provide one point of delivery for each parcel of land within the territorial limits which was shown as a separate parcel on the books of the Land Registry Office on the first day of January, 1923. The point of delivery shall be at the boundary of the parcel unless otherwise agreed to by the owner, and wherever practicable it shall be at such elevation or the water shall be delivered at such pressure that all irrigable land in the parcel may be reached.

The acquisition and operation of all works for the diversion and carrying of the water from the point of diversion to the various points of delivery, including works for controlling and measuring the water at the points of delivery, shall be the duty and liability of the improvement district, and the acquisition and operation of all works for carrying the water from the point of delivery for each parcel as aforesaid to the place of use and for utilizing the water and for taking care of the surplus water shall be the duty and liability of the owner of the land upon which the water is authorized to be used.

The Trustees may provide an additional point of delivery for any parcel of land upon the owner making written application therefor and paying a bonus of such amount as to the Trustees appears just and reasonable, and they may thereafter charge against the land affected and the owner thereof a special annual toll for the maintenance and operation of the works made necessary to comply with the said application, in addition to all other taxes, tolls, rentals, and charges payable in respect of the land affected.

Where any parcel of land is subdivided pursuant to a plan of subdivision filed in the Land Registry Office after the first day of January, 1923, all works made necessary by such subdivision shall be constructed by the owner of the land, and when such works have been constructed to comply with the requirements of the Trustees the improvement district shall thereafter be responsible for the maintenance of that portion of the works so constructed which the improvement district would be under obligation to provide had the plan of subdivision been filed prior to the said first day of January, except where such parcel is subdivided into parcels any of which contains less than five acres of land, in which cases the construction of all works made necessary by such subdivision shall be the duty and liability of the owners of the land to be served therefrom, and the maintenance and operation thereof shall be the duty of the improvement district, and the cost of such maintenance and operation shall be borne by the owners of the lands served therefrom.

7. The district shall not be under any obligation to, but may, if the Trustees deem it advisable, supply water for the irrigation of lands within the district which had not been beneficially irrigated prior to the year 1923, and the Trustees in fixing the tolls payable to the district may charge higher rates of tolls in respect of the service provided or water supplied for the irrigation of such lands than in respect of the service provided or water supplied

for the irrigation of lands which had been beneficially irrigated before the year 1923.

8. The Trustees shall from year to year raise by means of taxes the revenue required to meet payments of interest and instalments of sinking fund with respect to the indebtedness of the improvement district.

9. The Trustees shall from year to year raise all other revenue required to carry out the objects of the improvement district by means of tolls.

10. The tolls chargeable to the owners and occupiers of lands in the Interlaken Area shall be based upon the annual cost to the improvement district of the maintenance and operation of the works provided or maintained for the supply of water to the lands in that area including expenditures for power service, a portion of the overhead expenses of the improvement district, and such other sums as, in the opinion of the Trustees, are properly chargeable to that area.

11. The tolls chargeable to the owners and occupiers of lands in the Rayburn Area shall be based upon the annual cost to the improvement district of the maintenance and operation of the works provided or maintained for the supply of water to the lands in that area including expenditures for power service, a portion of the overhead expenses of the improvement district, and such other sums as, in the opinion of the Trustees, are properly chargeable to that area.

12. The tolls chargeable to the owners and occupiers of lands in the West Side Area shall be based upon the annual cost to the improvement district of the maintenance and operation of the works provided or maintained for the supply of water to the lands in that area including expenditures for power service, a portion of the overhead expenses of the improvement district, and such other sums as, in the opinion of the Trustees, are properly chargeable to that area. Different rates of tolls may be charged in the said area for water delivered above and below a certain elevation to be specified or referred to in the tolls by-laws of the improvement district.

13. In the exercise of their power to determine the method of grading lands for assessment, and in revising assessment rolls, and in fixing the rates of taxes imposed upon the various grades of land, the Trustees shall not differentiate between land in any one of the aforesaid areas and land in any other of them.

14. The taxes to be levied in respect of the cost of acquisition of the works of the improvement district may be commuted by the owner of any land in the district upon the owner paying to the district a sum bearing the same ratio to the indebtedness of the district less the sum accumulated in its sinking fund that the area of the owner's irrigable land bears to the total area of irrigable land within the district.

15. Sections 197 to 213, inclusive, and Schedule B of the "Water Act" shall not apply to this improvement district, and the following provisions shall apply:—

"An annual general meeting of the owners of land within the improvement district shall be called by the Trustees, and shall be held between the fifteenth day of February and the fifteenth day of April at a place within or in the vicinity of the improvement district, for the following purposes:—

"(a.) To receive from the Trustees a report on the condition of the works and a statement of the financial condition of the improvement district:

"(b.) To discuss with the Trustees any matter relating to the works or finances of the improvement district:

"(c.) To fix the remuneration of the Trustees for the ensuing year:

## DOMINION ORDERS IN COUNCIL.

P.C. No. 327.

CERTIFIED TO BE A TRUE COPY OF A MINUTE OF A MEETING OF THE COMMITTEE OF THE PRIVY COUNCIL, APPROVED BY HIS EXCELLENCY THE GOVERNOR-GENERAL ON THE 15TH FEBRUARY, 1932.

THE Committee of the Privy Council have had before them a report, dated 16th January, 1932, from the Minister of the Interior, submitting:—

That by an Order in Council dated the 21st day of October, 1925, P.C. 1876, authority was granted for the issue of patent to the Canadian Pacific Railway Company for certain lands for right-of-way and extra land for operating purposes at Field, within Yoho National Park, in the Province of British Columbia, as shown upon a plan recorded in the Department of the Interior under No. 30443.

That it was found that some of the boundaries of these lands were in conflict with the adjoining boundaries of lands which had been patented to the Canadian Pacific Railway Company at various times between 1890 and 1918, and that in order to overcome this difficulty and have the titles to all the Company's lands at Field conform to the plans of the latest surveys, the Company has transferred to His Majesty in the right of the Dominion by a deed dated the 14th day of April, 1928, all the remaining lands it owned under these former patents, on the understanding that a new patent would be issued to the Company for the said lands, as shown on the plan of survey thereof recorded in the Department of the Interior under No. 37572.

The Minister is of the opinion that this application should receive favourable consideration, and therefore recommends that, under and by virtue of the provisions of section 6 (2) of chapter 33, 20-21 George the Fifth, authority be granted for the sale of the land described hereunder to the Canadian Pacific Railway Company for the sum of one dollar.

*Description.*—All those parcels or tracts of land in the Twenty-eighth Township in the Eighteenth Range, west of the fifth meridian, in the Province of British Columbia, comprising parcel lettered "V" in the South-east Quarter of Section Seventeen of the said township, containing by admeasurement fourteen and forty-nine hundredths acres, more or less; parcel lettered "W" in the North-east Quarter of said Section Seventeen, containing by admeasurement fifteen and ninety-two hundredths acres, more or less; parcel lettered "X" in the said North-east Quarter of Section Seventeen, containing by admeasurement seven and twenty-hundredths acres, more or less; parcel lettered "Y" in the said North-east Quarter of Section Seventeen, containing by admeasurement two and ninety-one hundredths acres, more or less; and parcel lettered "Z" in the said North-east Quarter of Section Seventeen, containing by admeasurement

eleven and thirteen hundredths acres, more or less, as the said parcels are shown outlined in pink upon a plan of survey of parts of Sections Eight and Seventeen in the said township, signed by J. Lonsdale Doupe, Dominion land surveyor and British Columbia land surveyor, on the 25th day of August, 1930, approved and confirmed at Ottawa on the 13th day of November, 1930, by Frederic Hatheway Peters, Surveyor-General of Dominion Lands, of record in the Department of the Interior under No. 37572, a duplicate whereof is on record in the Land Registry Office of British Columbia, Nelson Land Registration District, at Nelson, British Columbia, under No. 1739; the lands herein described containing by admeasurement together fifty-one and sixty-five hundredths acres, more or less.

The Committee concur in the foregoing recommendation and submit the same for approval.

(Signed) E. J. LEMAIRE,  
Clerk of the Privy Council.

To the Honourable

The Minister of the Interior.
